

Total No. of Printed Pages: 2

SUBJECT CODE NO: - RNP-8053

FACULTY OF SCIENCE AND TECHNOLOGY

F.E. (Group A) Mech / Civil (NEP) Sem - II

Examination November / December 2025 (To be held in February-2026)

Programming for Problem Solving (P-2024-25)

[Time: 2 Hours]

[Max. Marks: 30]

Please check whether you have got the right question paper.

N. B

- 1) Q.no. 1 is compulsory.
- 2) Solve any TWO questions from Q.no. 2, 3, 4 and 5.

SECTION A

Q1 Solve any Five

10

- A) What does the acronym IDE stand for in programming?
- a) Integrated Development Environment
 - b) Internal Debugging Engine
 - c) Interactive Development Editor
 - d) Internet Development Extension
- B) Character constants should be enclosed between _____
- a) Single quotes
 - b) Double quotes
 - c) Both a and b
 - d) None of these
- C) Which of the following functions compares two strings?
- a) compare();
 - b) stringcompare();
 - c) cmp();
 - d) strcmp();
- D) Selection logic is used for
- a) Infinite path
 - b) Proper selection from two path
 - c) Proper selection from
 - d) All of the above
- E) Which of the following correctly declares an array?
- a) int anarray[10];
 - b) int anarray;
 - c) anarray {10};
 - d) array anarray[10];
- F) The keyword used to transfer control from a function back to the calling function is
- a) switch
 - b) goto
 - c) go back
 - d) return

G) What is the size of the following structure (assuming 4-byte integers)?

```
struct example {
    int a;
    int b;
};
```

- a) 4 bytes
- b) 8 bytes
- c) 2 bytes
- d) 6 bytes

SECTION B

- | | | |
|----|---|---|
| Q2 | A) Explain Function of Compiler With the help of neat diagram. | 5 |
| | B) Define variables in C? State the rules to define variables names in C. | 5 |
| Q3 | A) Design an algorithm to check whether given number is Palindrome or not. also Write a C code for the same | 5 |
| | B) Write syntax of if else statement also write program to read a number and check if it positive or negative number. | 5 |
| Q4 | A) Differentiate between while and do while loop | 5 |
| | B) Define 1-D array also write program to find greatest and least element from the array of five element read the element of array from user. | 5 |
| Q5 | A) Define string. Write a program in C to accept two strings from user and compare them using built in string library function. | 5 |
| | B) Write a program in C to create a structure having named as Bank_Acc consists Customer name, Account number, address and Balance as its members. Use array of structure to read the details for five bank customer from user and then display the data entered by the user on Screen. | 5 |
