

Total No. of Printed Pages: 2

SUBJECT CODE NO: - RNP-8073
FACULTY OF SCIENCE AND TECHNOLOGY
F.E (Group B) (NEP) Sem - I
Examination May/June 2026
Principles of Programming Language

[Time:3:00 Hours]**[Max. Marks:60]**

Please check whether you have got the right question paper.

N. B

- 1) Use of non-programmable calculator is allowed
- 2) Q.no. 1 is compulsory.
- 3) Solve any four questions from Q.no. 2, 3, 4, 5, 6 and 7

Q1 Solve the following questions. (Any 10)**20**

1. Procedural Programming is which type of programming paradigm.
 - a) Imperative
 - b) declarative
 - c) Relational
 - d) Parallel
2. Write a syntax of Variable declaration.
3. 'C' can be used on
 - a) Only MS-DOS operating system
 - b) Only Unix operating system
 - c) Only Windows operating system
 - d) All of the above
4. Which language is directly understood by the computer without translation program?
 - a) Machine language
 - b) Assembly language
 - c) High level language
 - d) None of above
5. Local variables are:
 - a) Global
 - b) Persistent
 - c) Temporary to function
 - d) Shared
6. Write syntax of if---else if statement in C
7. Which loop is guaranteed to execute at least once?
 - a) for loop
 - b) while loop
 - c) do-while loop
 - d) None of the above
8. What is the size of the following structure (assuming 4-byte integers)?

```
struct example {
    int a;
    int b;
};
```

 - a) 4 bytes
 - b) 8 bytes
 - c) 2 bytes
 - d) 6 bytes
9. Union and Structure differ in:
 - a) Syntax
 - b) Member access
 - c) Memory sharing
 - d) Arrays

10. Which function is used to copy strings?
 a) strcat() b) strcpy() c) strcmp() d) copy()
11. Write Syntax of array initialization.
12. Which loop is best for iterating over arrays?
 a) while b) do-while c) for d) Switch
13. How are strings terminated in C?
 a) With semicolon b) With space
 c) With null character '\0' d) With newline '\n'

- Q2** A) List and explain Input and Output devices of computer **5**
 B) Explain Arithmetic Operators in detail with the help of example **5**
- Q3** A) Explain Programming Domains. **5**
 B) Write a program to read currency in USA dollar and convert it into Indian Rupees. **5**
- Q4** A) Explain Syntax of while loop with the help of flowchart also write a program to print 1 to 10 numbers in reverse order **5**
 B) Explain the use of switch-case, default, and break in C with the help of suitable program. **5**
- Q5** A) Explain Enumerated data type in C with the help of suitable program. **5**
 B) Write a program to read an array of six elements and find greatest and smallest element from the array. **5**
- Q6** A) define String also write a program to read a string display the string in reverse order . **5**
 B) Explain use of dot(.) operator also create structure store information of 5 bank employees like student name, Branch, Roll no. and branch for 5 students. **5**
- Q7** A) Write a program to check whether given number is Palindrome or not **5**
 B) Explain Function call by value with the help of suitable program **5**
