Q6 Read the following paragraph and do as directed. **5**

A few years ago Tina started her own software development business, which turned out to be very lucrative. However, she got increasingly irritated by all the red tape involved in the administration of a business and when a larger company contacted her with a proposition, suggesting a takeover, she was interested. At first, the two companies could not agree on all the details of the agreement but they managed to reach a compromise and hammer out a deal without too much delay. In many ways Tina was sad that her company had been swallowed up but she has used the money raised by the sale of her capital assets to invest in a business start-up: an online holiday property letting agency

Replace the underlined words with a word or phrase from the above paragraph with a similar meaning.
