

Total No. of Printed Pages:03

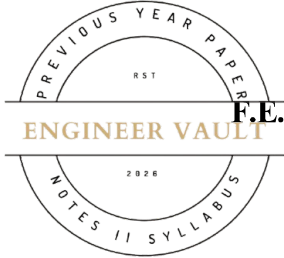

SUBJECT CODE NO: - RNP-8005

FACULTY OF SCIENCE AND TECHNOLOGY

F.E. (Group A & B) Mech/ Civil / CSE / AI & ML / EEE (NEP) Sem - I&II

Examination June/July 2025

Engineering Graphics

[Time: 3 Hours]

[Max. Marks: 60]

Please check whether you have got the right question paper.

N. B

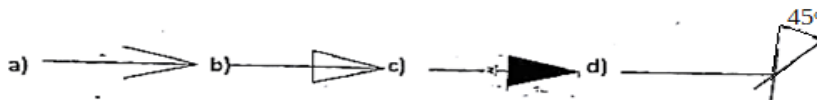

- 1) Use of non-programmable calculator is allowed
- 2) Q.no.1 is compulsory
- 3) Solve any four questions from Q.nos 2, 3, 4, 5, 6 and 7

SECTION A

Q.1 Solve any 10 question

20

- a) Which one is open and close arrow?

- b) Which one of the following is the dimensioning method?

- | | |
|---|--------------------------------|
| a) Aligned system | b) Unidirectional system |
| c) Combined dimensioning | d) All of above |
| c) Projection of a point in the Second quadrant will be | |
| a) Front View in VP | b) Front view in HP |
| c) Front view in PP | d) None |
| d) Position of point in Second angle | |
| a) Observer - plane -object | b) Plane- observer-object |
| c) Observer-object-plane | d) None of the this |
| e) Position of point in fourth angle | |
| a) Above HP and Below VP | b) Below HP and Behind VP |
| c) Above HP and in front of VP | d) Below HP and in front of VP |
| f) Point A is below HP and Behind VP then it is in which angle ____ | |
| a) First Angle | b) Second Angle |
| c) Third angle | d) Fourth Angle |

- g) If a line AB parallel to the horizontal plane and Perpendicular vertical plane then ,then its true shape occurs on which plane _____
 a) HP b) VP c) PP d) None
- h) If A plane is inclined to both the reference plane, then the plane come under _____
 a) Auxiliary plane b) Oblique plane
 c) Perpendicular Plane d) Cross Plane
- i) This type of solid has one bases and one apex point comes under:
 a) Pyramid b) Prism c) Cylinder d) Torus
- j) What type of views is used to provide clarity and reveal interior features of a part?
 a) Section views b) Oblique views
 c) Auxiliary views d) Pictorial views
- k) Isometric Scale _____.
 a) 0.816 b) 0.888 c) 0.999 d) 1
- l) For the object shown in Fig. 7.23 select the correct front view

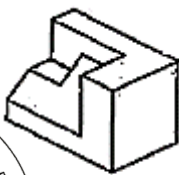

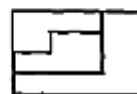

Fig. 7.23

(a)

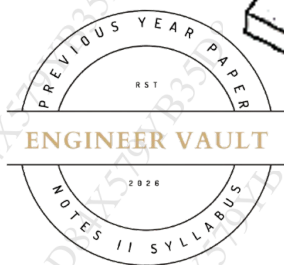

(b)

(c)

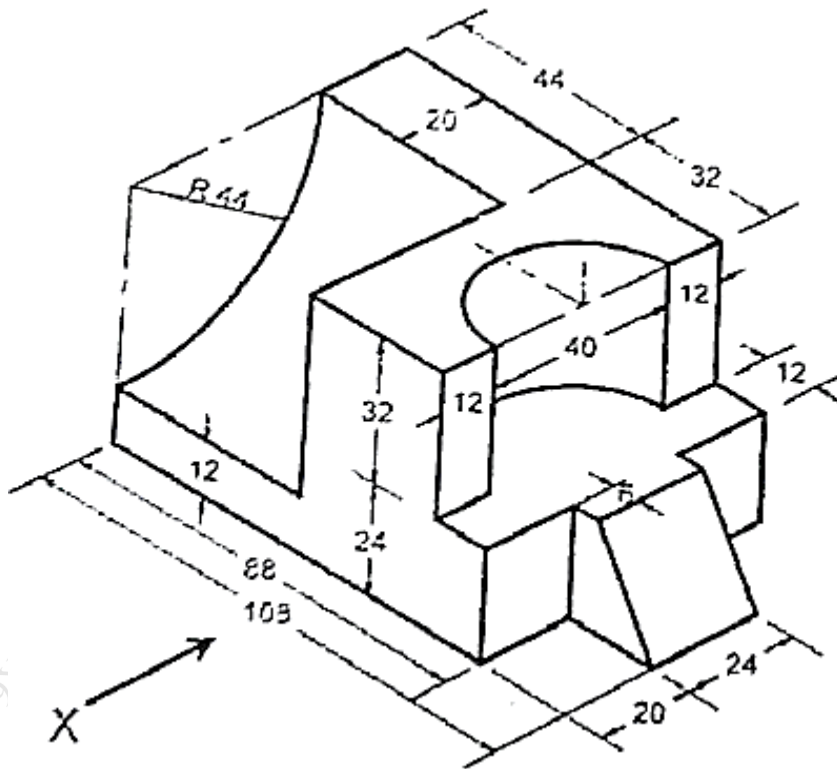

(d)

SECTION B

- Q.2** The top view of a 75 mm long line measures 65mm long, while the length of its front view is 50mm. It's one end A is in H.P. and 12mm in front of the V.P. Draw the projections of AB and determine its inclinations with the H.P. V.P., HT & VT. **10**
- Q.3** A rectangular plane of 30mm x 60mm dimensions has its shorter side on H.P. and 30° inclined to V.P. Draw its projection, when the plane is 45° inclined to H.P. **10**
- Q.4** A pentagonal Pyramid, base 30 mm side and axis 70 mm long has one of its slant edges in the HP and inclined at 60° to the VP. Draw the projection of the solid, when the Apex is towards the observer. **10**
- Q.5** A square prism of side 30 mm and height 70 mm has its base in HP with one of its sides 30° inclined to VP. It is cut by a cutting plane 60° inclined to HP and Perpendicular to VP and cutting the Axis at point 20 mm from top face. Draw its front view, sectional top view and true shape of the section. **10**

a) Front View b) Top View c) Side View

10
